

# ROLLS

## Introducing the new Rolls HA204 2 x 4 Headphone/Earphone Amplifier

- The new Rolls HA204 instantly gives you more headphone/earphone outputs, and more volume for each listener.
- For over a decade now, Rolls has been building quality headphone amplifiers in Salt Lake City, Utah. So you can count on the Rolls HA204 for full bandwidth fidelity and lots of volume. It's powered by any standard 9V alkaline battery or a Rolls PS27 AC adapter. Plug in your headphones and feel the joy.
- Works great with any kind of stereo output. Included are cables for hooking up to stereo RCA jacks or 1/8" (3.5mm) stereo earphone/soundcard/etc. outputs.
- Supplies private sound with full bass and treble for up to four people, anywhere.
- Your going to love your Rolls HA204.

IDEAL FOR PORTABLE DEVICES LIKE:

CD Players  
MP3 Players  
DVD Players  
Laptops  
Games
